

# Low Energy Electrodynamics in Solids 2012

## Friday, 27 July 2012

### Nanoscale Spectroscopies - Chardonnay Ballroom (10:45 - 12:15)

-Conveners: Fritz Keilmann

| time  | [id] title   | presenter           |
|-------|--|---------------------|
| 10:45 | [144] Nano-optical imaging and spectroscopy of mesoscopic phase behavior in quantum matter   | RASCHKE, Markus     |
| 11:15 | [2] Graphene as a tunable plasmonic material   | FOGLER, Michael     |
| 11:45 | [4] Infrared nanospectroscopy of plasmons in semiconductors, metal nanoantennas and graphene | HILLENBRAND, Rainer |
