

CIPANP 2018 - Thirteenth Conference on the Intersections of Particle and Nuclear Physics

Wednesday, 30 May 2018

Plenary 4: Precision Physics at High Intensities | Tests of Symmetries and the Electroweak Interaction - East Foyer | Larkspur/Mesquite Rooms (10:10 - 12:30)

-Conveners: Dave Bowman

time	[id] title	presenter
10:10	[90] Electromagnetic Properties of Antihydrogen and the Antiproton: Recent Results from ALPHA and BASE	Dr MAXWELL, Daniel
10:45	[95] Symmetries and Interactions from Lattice QCD	Prof. NICHOLSON, Amy
11:20	[73] NPDGamma: The Final Chapter	Prof. FOMIN, Nadia
11:55	[81] Standard Model Tests in Neutron and Nuclear Beta Decay	GONZALEZ-ALONSO, Martin
