

# Nuclear Structure 2022

## June 13-17, 2022 - Berkeley, CA

Dear Colleagues,

We would like to invite you to join us for the Nuclear Structure 2022 conference (NS2022), currently planned to take place on-site at Lawrence Berkeley National Laboratory, from June 13-17, 2022. This is the 18<sup>th</sup> meeting in the Nuclear Structure series, following the 2018 conference held in East Lansing, MI and after the cancellation of NS2020 due to the COVID-19 pandemic. We are in the process of assembling an exciting scientific program, focusing, as is tradition, on recent experimental and theoretical research on atomic nuclear structure at the limits of mass, isospin, excitation energy, and angular momentum.

Abstract submission is now open, and will remain open until the end of March at the conference website - <https://conferences.lbl.gov/e/NS2022>.

We also request that you pre-register (<https://conferences.lbl.gov/e/NS2022>), to help us with planning for the meeting.

Stay tuned for updates as we get closer to NS2022, and stay safe!

-- NS2022 Local Organizing Committee

Kymba A'Hearn, Lee Bernstein, Chris Campbell, Rod Clark, Heather Crawford (chair),  
Mario Cromaz, Paul Fallon, Tom Gallant, Jacklyn Gates, Augusto Macchiavelli,  
Jennifer Pore and Larry Phair
