

The CentOS Project

Community-driven free software effort focused around the goal of providing a rich base platform for open source communities to build upon.

We offer two Linux variants: ([What's the difference?](#))

CentOS Linux

Consistent, manageable platform that suits a wide variety of deployments. For some open source communities, it is a solid, predictable base to build upon.

CentOS Stream

Continuously delivered distro that tracks just ahead of Red Hat Enterprise Linux (RHEL) development, positioned as a midstream between Fedora Linux and RHEL. For anyone interested in participating and collaborating in the RHEL ecosystem, CentOS Stream is your reliable platform for innovation.

News and events

Connect at FOSDEM

Nov 22, 2022 — Join us at CentOS Connect on February 3, 2023, the day before FOSDEM. CentOS Connect is a free mini-conference focusing on CentOS and the Enterprise Linux ecosystem.

Summer Dojo

Jun 10, 2022 — CentOS is hosting a free online Dojo on June 17. We have seven talks on a variety of topics, as well as a chance to chat with the board. Registration is free but required.

DevConf.US Dojo

Jun 10, 2022 — CentOS is hosting an in-person Dojo at DevConf.US. The Dojo will take place at Boston University on August 17, the day before the main DevConf talks. The CFP and registration are open. The Dojo is free as always, but registration is strongly recommended.

FOSDEM CentOS Dojo Videos

Feb 9, 2022 — The videos and slides from the FOSDEM CentOS Dojo are now available on the event website.

Convert to CentOS Stream 8

Feb 9, 2022 — The CentOS Linux 8 packages have been removed from the mirrors. If you haven't already, convert any CentOS Linux 8 installations to Stream 8 with these two commands:
